📍 Bangalore, India

Profile

Adaptable **Senior Software Engineer** with 8+ years of experience delivering customized and optimized frontend solutions using **React.js and Angular**. Excels in agile environments, balancing hands-on development with technical leadership to meet aggressive timelines. Equally effective leading large development teams or independently engineering complex applications.

SKILLS

React.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Redux, NgRx / Store, RxJS, Material UI, PrimeNG, Bootstrap, Jasmine, Jest, Git, Rest APIs, Tailwind CSS, Micro Frontend (MFE), Webpack, Babel, npm

WORK EXPERIENCE

Senior Software Engineer, Operative Media

Present

- Developed and optimized the **AOS web application** using **React.js and Angular**, delivering business-critical modules supporting content management, advertising workflows, and analytics.
- Led the **Angular migration from v9 to v15**, modernizing the application and improving performance, maintainability, and scalability.
- Reduced application load time by **~35%** by eliminating redundant API calls, optimizing data flow, frontend state management, and UI rendering.
- Designed and implemented a **Micro Frontend architecture**, enabling independent deployment of modules.
- Implemented **cross-window and cross-module communication** using the **Broadcast Channel API**.
- Managed multiple concurrent projects, consistently meeting **tight deadlines** while maintaining high quality and stability standards.
- Conducted regular **peer code reviews**, enforcing best practices and improving overall code quality and consistency.
- Mentored junior developers through technical guidance and reviews, accelerating skill development and improving overall team productivity.

Senior UI Developer, Happiest Minds

04/2021 - 05/2022

- Developed a cross-browser responsive UI called SUCCESSMAKER, an online Learning Management System (LMS), using Angular 11, RxJS, and ngx-translate.
- Created web components using Stencil JS framework which suits all the front end frameworks.
- Developed worksheet Application called PRACTICE GENERATOR kind of worksheet using ngRx Store.

Front End Developer, Accenture

05/2017 - 04/2021

- COX Communications- Worked as a DevOps Engineer from 2017 to 2018 for Telecom BSS and Retail domain.
- BSS Activities include Production Deployments (Manual & Jenkins), Patching Activities, Validations, Restarts, Monitoring Applications & Servers.

EDUCATION

Bachelor of Engineering: Computer Science,
Kongu Engineering College

2013 - 2017
