

Krishnaraj D

Senior Frontend Engineer

Bangalore, India • krdheenappan31294@gmail.com • +91 86681 41218 • LinkedIn: [fill in URL](#) • GitHub: [optional](#)

SUMMARY

Senior Frontend Engineer with 8+ years building large-scale React and Angular applications across AdTech and EdTech. Led an Angular 9 → 15 migration on the AOS platform, designed a Micro Frontend architecture for independent module delivery, and reduced application load time by ~35% through state, API, and rendering optimizations. Comfortable owning delivery end-to-end and mentoring frontend teams.

SKILLS

Languages	TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS
Frameworks	React.js, Angular (9–15), RxJS, NgRx, Redux
UI / Styling	Material UI, PrimeNG, Tailwind CSS, Bootstrap
Architecture	Micro Frontends (MFE), REST APIs, Broadcast Channel API
Testing	Jest, Jasmine
Tooling	Webpack, Babel, npm, Git, Stencil JS

WORK EXPERIENCE

Senior Software Engineer — Operative Media

04/2022 – Present

- Developed and optimized the AOS web application (React.js and Angular), delivering business-critical modules for content management, advertising workflows, and analytics.
- Led the Angular migration from v9 to v15 across **N** modules, modernizing the stack with no regressions across release cycles and improving long-term maintainability.
- Reduced application load time by ~35% by eliminating redundant API calls and refactoring state management and rendering hot paths.
- Designed and implemented a Micro Frontend architecture, enabling **N** teams to build and deploy modules independently.
- Built cross-window and cross-module communication using the Broadcast Channel API, replacing brittle event hacks across **N** modules.

- Managed *N* concurrent projects to tight deadlines while maintaining high quality and stability standards.
- Conducted regular peer code reviews and mentored *N* junior/mid engineers, improving review throughput and reducing post-release defects.

Senior UI Developer — Happiest Minds

04/2021 – 05/2022

- Built **SUCCESSMAKER**, a cross-browser responsive Learning Management System (LMS) in Angular 11, RxJS, and ngx-translate, serving *N learners across M locales*.
- Authored a library of reusable web components in **Stencil JS**, consumed by both Angular and React apps, eliminating duplicated UI code across teams.
- Delivered **Practice Generator**, a worksheet authoring tool built with NgRx Store, enabling *target users* to produce *N artifacts/week*.

Front End Developer — Accenture

05/2017 – 04/2021

- Started as a DevOps Engineer on the **COX Communications** account (Telecom BSS and Retail domain, 2017 – 2018), owning production deployments (manual and Jenkins-based), patching, validations, restarts, and application/server monitoring.
- *Add 2–4 bullets covering the frontend work you did at Accenture 2018 – 2021: project, stack, scope, impact.*

EDUCATION

Bachelor of Engineering, Computer Science

Kongu Engineering College • 2013 – 2017
